Hi there. This is a heads up. It is clear that we do not have the resources here to bring this to an end. I have asked the clerk to draft up a motion to formally request to the solicitor general of Ontario to invoke section 275 of the national defence act, aid to the civil power. Unless I see a marked change in the approach over the course of the weekend, I am going to move it on Monday at a special meeting if council.

I'm telling you because you're my pal, and because of what you do, and because you know exactly what this will mean.

I have a majority to support it.
